Vehicles	\$500/veh	\$300/veh				

Origin dry van rates are based on a live-load AT RESIDENCE else add \$17.50/ncw. Your drayman will present an empty container and we will fill it. If he drops the container at our facility and we take it to residence and return it a Drop & Pull charge is due. The \$17.50/ncw trans-load fee is not applicable to Lift Vans unless we MUST loose load to or from our warehouse.

Origin services include survey, packing, simple disassembly and servicing of appliances (simple GF clocks, ice makers and top load washers), export wrap and stowing the container. Crating and special servicing are additional and rates are online at <http://www.jonesmoving.com/moving/crates-3rd-party/>. **Packing service (pack only – no crating or export wrap) is normally \$35/ncw** with a normal proportion of furniture to packed articles. A survey is required in order to provide an accurate origin rate quotation.

Destination dry van rates are based on live-unload AT RESIDENCE else trans-load or drop and pull will be additional. Delivery includes unpacking, nominal uncrating; refuse removal and the nominal reassembly and re-servicing of appliances. We assume a liability for loss or damage due to mover error limited not to exceed 60¢ per pound of weight per article while the order is in our custody; else a valuation premium will apply.
